

# Copenhagen Light Festival is underway!

More than 55 light installations are featured in this year's Copenhagen Light Festival. The installations will illuminate the winter holiday month, up until the 26th of February. 13 of the installations will stay on even longer.

## Copenhagen Light Festival in groups

Installations are mostly placed along the harbor and in the city center, but don't miss out on the big beautiful installations that have been set up on Refshaleøen as well as throughout the Ørestad area, from DR City and out toward Fields shopping mall.

Beautiful installations can also be found in Vestre Kirkegård cemetery and in Remiseparken park. Copenhagen Light Festival has in this way attempted to showcase larger areas of Copenhagen. In the city center as well as in the other areas, you'll find routes ranging from 2-9 km, which can be traveled by walking, jogging, or cycling.

**Download our mobile app**

**Find maps, routes, and information about the installations, based on your own location**

**Light-themed treasure hunt with prizes at beverage stalls**

The map in the mobile app shows you where to find all the installations based on your own location. Everyone is welcome to join the light-themed treasure hunt, which challenges you to find 25 installations, in order to win a reward of hot chocolate, beer, or something else from our festival-themed beverage wagons – which you’ll find on Højbro Plads square and in two locations on Havnegade street.

In the app you’ll also find links to the artists’ web pages, among other interesting things.

Light-themed running event, arranged by Danish Architecture Center in collaboration with Copenhagen Light Festival, will be held on the 17th of February. The route is 8 km long. The event will possibly set a record as Denmark's largest light-themed running event.

**Guided tours**

Guided tours have been popular in recent editions of the festival. This year we've expanded tour-opportunities to include beer-, wine-, and dance-themed tours, as well as tours offered by Canal Tours, that'll show you the light festival from the vantage point of Copenhagen's classic canals.

## **Disneyland Paris**

This year we've had an extraordinary collaboration with Disneyland Paris, who this year will celebrate their 30-year anniversary. The result of this collaboration is the interactive projection found by Broens Gadekøkken street kitchen.

The interactive light-installation is an experience for people of all ages. By uploading a personal photo, you yourself can become a visual part of the iconic Disney Castle.

Between 17:00-20:00 a dancing event takes place.
